Mines and Mining Stocks

on 'Change Releases Data on Wonderful Property.

One of the most important listings that & Mining exchange in recent months is had been made in the Bingham Central-

miles out of Pioche.

The statement touching development work and tonnage exposed in the mines is a remarkable exhibit. There are 470 feet of shaft, 1,100 feet of tunnels, 260 feet of winzes, 240 feet of upraises and 500 feet of crosscuts in the mine, and there is 2000 tons tons of iran silver lead or expective. of crosscuts in the mine, and there is 2.000.000 tons of iron-silver-lead ore exposed and blocked out. This ore is known to be of exceptional value for fluxing purposes, and every ton of it is good for a profit of several dollars a ton, without counting at all the ribs of high-graderock that break through the massive body at stated intervals and which, in the past have brought more than \$100 a. the past, have brought more than \$100 a

In addition to this showing in the mine the company owns 171,000 tons of old tailings at Bullionville, which carry in excess of \$10 a ton in silver, lead and gold, and from which it is planned to make a fortune through treatment by modern meth-

It is hardly necessary to mention in de-

COPPER STOCKS IN BOSTON AND NEW YORK

Owing to wire troubles, Pollock & Co did not receive the usual market letters and full quotations on the New York and Boston mining stocks yesterday. Following is a partial list of the closing quotations on the Boston exchange and New York curb:

ments is placed at \$100,000. The company also owns three miles of water pipe line to its mines, and thirteen miles of telephone line. From its mines to the railroad is only three miles, and at the present time a force of thirty men is kept on development work at the property. From this brief but accurate description of the company's holdings, it can be readily seen that the Prince Consolidated is nothing if not a splendidly equipped proposition, and that its mines are entitled to recognition in the ranks of the

titled to recognition in the ranks of the big ones in this western country.

MINING STOCK EXCHANGE.

Week Closes With Business Approaching Boom Proportions.

Bullish sentiment was rampant on the Bid. Asked. good start during the regular call, it re-mained for the open board to display the full strength of the movement. Colorado went well over the \$3 mark and Iron Blossom sold up from \$1.92\% to \$2.02\%, while Sioux Consolidated went to \$1.20. South Columbus was advanced from 52c to 59c, while Crown Point, Mountain Lake, Uncle Sam. Nevada Hills and some of the others showed much better form than they have done for several days. The market looked more like it did last May, when the boom in Tintic stocks was or and it now seems as though the election excitement would stimulate rather than depress the market. During the week a total of 384,448 share

of stock, with a selling value of \$287,-858.41, changed hands, yesterday's propor-tion of the totals being 67,026 shares and \$52,736.50. Following is the list of final quotations and record of sales made during yesterday's single regular and open

At Bulliouville the company owns a large mill, equipped with boilers, together with all other equipment and necessary buildings, together with a perpetual water right for 500 gallons per minute, and the estimated cash value of these improvements is placed at \$100,000. The company also owns they emiles of water nine line. several millions of tons of ore developed and during the next six months we shall add immeasurably to the proven ton-

Mr. Jackling and the party spent two days in Globe and during their Arizona pilgrimage inspected the Old Dominion, the Arizona Commercial and the Mianai copper mines. Globe, Mr. Jackling states, copper mines. Globe, Mr. Jackling states, is a handsome city and a marvel of ail who go there. Its main support is the Old Dominion properties, which output about 1,500,000 pounds of copper a month. If such a city can thrive on a property of that magnitude, Mr. Jackling says, what may be expected of Salt Lake, when Bingham is producing 10,000,000 pounds of copper per month, as it will be in the not distant future.

While it requires a railroad ride of several hundred miles to go from the Ray Consolidated properties around to the Miami, the latter property, Mr. Jackling says, is only about twenty-five miles distant across the mountains in a direct line. He considers the Miami one of the coming great copper mines of the Arizona field. great copper mines of the Arizona field.
"When a person gets away from Utah, "When a person gets away from Utah," said Mr. Jackling, in dismissing the subject of his trip, "he soon finds that the raines of this state attract wide attention. Where, a few short years ago, Bingham and its copper mines was rarely meationed, it is now being quoted and referred to on all sides. Utah Copper is today one of the best known copper mining enterprises in the world and the fact is beginning to be appreciated that the cutput of copper by this and other Utah mines, will have to be taken into the reckoning from this time on."

TWO NEW STRIKES

PERUVIAN CO. OF ALTA MAKES NEW BEGINNING

of provide the money sessions.

The old Peruvian tunnel is in a distance of 1,160 feet and in going that distance several cross-fissures have been cut. The last assay taken from the latest fissure to be encountered gave returns of 12 per cent copoper, 20 per cent lead, 78 ounces silver and \$1.60 in gold per ton. The objective point of this tunnel has always been the great north and south contact ledge, from which the fissures are fed and recent surveys and examinations by competent engineers place the distance yet to be run at somewhere between fifty and 100 feet.

The property was taken from a depth of about four feet on the main ledge. This property was taken over by Messrs. Chafey and Bishop only last week. Upon the return of Mr. Chafey from San Francisco, a force of men will begin active operations. This important strike, together with the showing on the Eagle group, means much for the baby camp, which already ranks as the third producer, in point of tonnage, in Nevada.

DETAILS OF THE BIG

SEVEN TROUGHS MERCED distance yet to be run at somewhere be-tween fifty and 100 feet. The property is in charge of B. F. Clays,

and supplies are now being put in at the mine to see a good working crew through the winter, whether the roads become impassable or not. There are good buildings on the ground, and the expec-tation is that work in the face of the tunnel can be started early in the week.

DOINGS OF UNLISTED STOCKS ON EXCHANGE

Unlisted stocks received better attention Unlisted stocks received better attention than is usually the case on Saturdays, with business being done in a half dozen of them. Eureka Swansea Extension sold at 10c, Mammoth at \$1.75. Ohio Copper at \$3.92½ to \$3.97½. Seven Troughs Columbine at 15c. Utah Mine at \$1.45 and Uintah Treasure Hill at 18c, buyer thirty days. East Crown Point was quoted at 2c bid. Federal-Ely at 7c asked. Mineral Flat at 14c at 15c. Silver King Coalition at \$3.92½ bid and West Quincy at 16c asked.

GOLD SPRINGS MINES MAKING THINGS HUM

After a two months' stay in Los An-After a two months' stay in Los Angeles with his family, which will remain there during the winter, C. A. Short, the well known Gold Springs operator, came up from the south yesterday and went through to Logan. On his way from the coast Mr. Short stopped off at camp to see how things were moving.

"They are now doing well at the Jennie" said Mr. Short "though the break-themselves to those acquainted with the

see how things were moving.

"They are now doing well at the Jennie," said Mr. Short: 'though the breaking of an engine has forced the management to cut the mill run down to shifts until the new engine, now at camp, can be installed, a matter of only a few days now. The mill is doing good work and the ore going through is averaging \$12 a ton. The company is now making some money and it will not be long till the profits of operation will run into big figures. The Jennie is going to be a winner from now on."

Mr. Short stated, also, that a new hoisting plant was being installed at the Independence, the shaft in which has now attaited a depth of 29) feet. While drifting both ways on the 200 level is progressing to the many other reasons, in fact, too numer many other reasons, in fact, too numer ous to mention, but which suggest themselves to those acquainted with the extensive development and operation of mining properties, bearing the same relation to each other as is the case with these, for example, the always disturbing question of apex, the one expense in operating its reduction plant, its water supply, and a plan for thorough development from one well equipped working shaft and plant, etc.

"For the purpose of acquiring these interests, through the exercising of its options, the company has set aside thirteen-fifteenths of its capital stock (1,300,-600 shares) to be disposed of at par, the returns from which will be used in securing the optioned stock of the aforesaid

Who Gets the Prosperity?

TWO NEW STRIKES ARE MADE AT CHAFEY

The Peruvian Mining & Milling company, one of the old-timers of the Little Cottonwood district, has just increased its capital stock from 150,000 to 450,000 shares, five claims have been added to its possessions and all arrangements have been perfected to resume operations at the winter months a vigorous campaign of development. In the reorganization it was decided to give the old stockholders two shares for one, 100,000 shares was applied to the purchase of the Hungry Ten group of five claims adjoining the old possessions on the west, while the remaining 50,000 shares of stck was all bought by the stockholders to provide the money with which to develop the company's possessions.

The old Peruvian tunnel is in a discrete from a four-foot lead in the Eagle property, which is about a mile east of the wonderful Black Hole mine, and on a parallel vein, was brought to town which showed free gold in abundance. Active work is now being prosecuted on the property by lessees. This strike, which has the appearance of permanency, will extend the producing area of the camp to a considerable extent.

Yesterday samples were brought in by Jack Bishop from the Little Hope, which is the south extension of the Eagle, which are by far the finest specimens that have yet been on exhibition. The rock is fully half gold, and came from a depth of about four feet on the main ledge. This property was taken over by Messrs. Chafey and Bishop only last week. Upon the return of Mr. Chafey from San Francisco,

It was recently announced that a deal had been rounded out which had for its object the making of one big company of the Seven Troughs Therien, the Kindergarten and the Red Cloud properties in the Seven Troughs camp. The basis of the Seven Troughs camp. The basis of the new corporation, which is styled the Seven Troughs Coalition Mines company is the Red Cloud property and certain valuable options through which the control of the Kindergarten and the The-rien bonanza properties will be acquired. Through R. J. Evans, the fiscal agent of the new corporation, a most elaborate and highly illustrated prospectus has just of the new corporation, a most elaborate and highly illustrated prospectus has just been issued. The merits of the consolidation of the properties involved have been told in this department before, but the manner in which the important undermanner in which is the important undermanner in which it is the important undermanner in which is the important undermanner i

best properties in the district. L. A. Friedman, the largest individual owner in all the properties, being the principal mover in the proposed consolidation. Any one familiar with this district (and the same conditions prevail generally in this as in most mining districts) will readily appreciate the great advantage of this consolidation.
"As will be seen from the following re-

shares of coalition stock, we would obtain control of two million-share companies, and still have 800,000 shares of treas-

ury stock of the company intact.
"It is only through the misfortunes those suffering from the terrible strin-gency of the money market during the past year that this company is enabled Chafey. Nev.. Oct. 23.—A few days ago some rock from a four-foot lead in the Eagle property, which is about a mile east of the wonderful Black Hole mine, and on a prayllal well.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$100,000, as follows: Silver, lead, gold and copper ores, \$20,000; base bullion, \$80,000.

Metal Market.

Silver, 51%c per ounce. Copper (cathodes), 13%c per pound. Lead, \$4.37 per 100 pounds.

Mining Notes.

H. S. Townsend, the well known Park City attorney and mining man, is down from camp for a day or two. Nine cars of ore from Utah and two from Nevada mines were released from the Taylor & Brunton sampling works

The Pioneer Sampling company yester-day reported the release of three cars of ore from Utah, one from Idaho and one from Nevada mines.

J. M. Hayes, cashier of the Utah Cop-per company, returned yesterday morn-ing from a several days' business and pleasure trip into the horthwest.

Lester Freed and H. E. Clark, two of the officers of the Hecla company, went down into Beaver county yesterday to size up the new disclosures in the property. President David Keith and General Manager Thomas Kearns of the Silver King Coalition company, who have been in Los Angeles for several days on mining business, are expected home again today.

The Ely Consolidated Copper company told in this department before, but the manner in which the important undertaking is to be worked out has not been shown. That is explained by Mr. Evans in the prospectus, as follows:

"The purpose of the company is to take over, in addition to its own holdings, the control of two, possibly three, of the very best proporties in the district of the company, which are located in Ely, right away.

THE YEAR AROUND

There is a beverage that is always in season-spring, summer, autumn and winter-and

FISHER BEER

It knows no particular season, although the call is increased during the warm months, because it is the greatest of all thirst-quenchers. But it is a food beverage and a health beverage, therefore the demand for it continues the year around.

Fisher beer is winning new converts every day. Won't you try a case?
